Timely Submission	Submitted within the first two periods. Submitted within the third & fourth period	1 mark ½ mark will be allotted out of 1 mark

A **blurb** is a short promotional piece accompanying a creative work. It may be written by the author or publisher or quote praise from others. Blurbs were originally printed on the back or rear dust-jacket of a book, and are now found on home video cases, web portals, and news websites. A blurb may introduce a newspaper or magazine feature story.

Read the story ‘Princess September’ from the supplementary reader ‘It so Happened’ and write a story blurb based on an A4 size pastel sheet (80-100 words). Take hints from the sample given below:

The Night Bird by Brian Freeman

Homicide detective Frost Easton doesn't like coincidences. When a series of bizarre deaths rock San Francisco—as seemingly random women suffer violent psychotic breaks—Frost looks for a connection that leads him to psychiatrist Francesca Stein. Frankie's controversial therapy helps people erase their most terrifying memories...and all the victims were her patients.

As Frost and Frankie carry out their own investigations, the case becomes increasingly personal—and dangerous. Long-submerged secrets surface as someone called the Night Bird taunts the pair with cryptic messages pertaining to the deaths. Soon Frankie is forced to confront strange gaps in her own memory, and Frost faces a killer who knows the detective’s worst fears.

As the body count rises and the Night Bird circles ever closer, a dedicated cop and a brilliant doctor race to solve the puzzle before a cunning killer claims another victim.

MATHEMATICS

A. Collect the data on size of shoes from 36 students of Class VIII and make the Discrete frequency distribution table. (Refer your Notebook to see what is discrete frequency Distribution table)

Procedure for making Frequency Distribution Table

Step – 1 : Collect the data of size of shoes of 36 students in the following table (Same table you need to draw on plain white A – 4 size sheet).

S. No	Name of the student	Age(years)	Class & Section	Size of shoes
1				
2				
...				
36				

Step – 2 : After collecting the data of size of shoes you need to make the Frequency Distribution Table. Table has been given for your reference: (Same table you need to draw on coloured A – 4 size sheet).

Size of shoes	Tally Marks	No. of Students
	Total	36

After making the Frequency Distribution Table draw the following on two A4 size light coloured pastel sheets separately:

- a) Bar graph (on x – axis size of shoes and on y – axis number of persons).
- b) Pie-chart (With the help of protractor and compass).

B.Do worksheet no: 5 & 11 in Maths Workbook using pencil.

C.Find out the squares of the following numbers using Diagonal method on A – 3 sized pastel sheet according to the Roll number:

Roll Number	Square Number
1 – 10	Square of 45, 98 and 123
11 – 20	Square of 52, 74 and 142
21 – 30	Square of 38, 69 and 231
31 – 40	Square of 64, 83 and 152

Instructions

- i. All work should be done on A- 4 sized pastel sheet (except finding the squares by diagonal method-Use A3 sized pastel sheet for same) with any coloured pen/colours.
- ii. Table drawn in Step 1 and Step 2 should be drawn on plain A4 size sheet and should be submitted along with other work in clear bag folder.
- iii. All work must be hand written with margin of 2cm from all sides.
- iv. Bar graph should be drawn on graph and then pasted on A4 size light coloured pastel sheet and use different colored origami sheets to make bars of Bar graph.
- v. Pie chart should be drawn on A 4 size light coloured pastel sheet and use different colored origami sheets to make different sectors of pie.
- vi. Table for calculation of central angle should also be shown along with pie chart.
- vii. Worksheet should be done in Maths workbook only with pencil.
- viii. Reference for finding the squares by diagonal method <https://youtu.be/FGsTgBa8GVw>
You may also refer RD SHARMA book for same.

D. Revise the syllabus done so far.

Mention your name ,class & section clearly on all the sheets and then put it in a clear bag folder.Label the folder as well.

Science

1. Read Chapter 1 “Crop Production and its Management” and complete all the workbook questions.

2. JOURNEY OF A SEED FROM THE SOIL TO THE PLATE

Prepare a power point presentation (not more than 10 slides) to show case the journey of any 1 plant (wheat/ gram /maize/ cotton/ paddy etc) from being sown as seed, undergoing every step of a basic crop production to reaching our homes in form of food.

Listen the conversation on page 10 question 6, page 19 question 13 and write in german notebook.

→ Do the worksheet given below.

Die 4 Jahreszeiten

Es gibt 4 Jahreszeiten: FRÜHLING, SOMMER, HERBST, UND WINTER. Jede Jahreszeit hat drei Monate. Offiziell beginnt der FRÜHLING am 21. März in der nördlichen Hemisphäre und am 21. September in der südlichen Hemisphäre. Im Frühling regnet es oft und es gibt starke Winde. Manchmal ist es noch etwas kalt, aber manchmal wird es auch recht warm. Die Blumen beginnen, zu blühen und neue Blätter sprießen auf den Bäumen. Die Vögel bauen Nester.

DER SOMMER beginnt am 22. Juni im Norden und am 22. Dezember im Süden. Der Sommer ist die wärmste Jahreszeit, und die Kinder haben Ferien. Die Leute gehen ins Schwimmbad oder fahren an den Strand. Alle tragen leichte Kleidung. Es regnet stark und oft gibt es Gewitter mit Blitz und Donner.

Nach dem Sommer kommt der HERBST (21. September im Norden, 21. März im Süden). Es wird langsam kühler. Die Blätter wechseln die Farbe, werden gelb, rot, orange und braun und fallen dann von den Bäumen. Viele Früchte werden reif. Das Wetter wird trockener.

DER WINTER ist die kälteste Jahreszeit. (22. Dezember im Norden und 22. Juni im Süden). In vielen Ländern schneit und friert es. Die Leute gehen Skifahren und Eislaufen und die Kinder machen Schneeballschlachten oder bauen einen Schneemann.

Beantworte die Fragen

1. Wann ist Frühling in Südamerika?.....
2. In welcher Jahreszeit haben die Kinder Ferien?.....
3. Wie ist das Wetter im Herbst?.....
4. Wann gibt es viele Blumen?.....
5. Wann werden die Früchte reif?.....
6. In welcher Jahreszeit regnet es stark?.....
7. Wohin gehen die Leute im Sommer?.....
8. Was machen die Leute im Winter?.....

Schreib die richtige Jahreszeit unter die Bilder.
